

PURCHASING OF FOOD FOR EMPLOYEES

Food purchased through public funds for the purpose of serving refreshments at meetings of Attleboro Public School employees is prohibited. However, when such meetings involve: public forums for parents and community members; interviewing potential candidates for employment in the Attleboro Public School system; extended negotiation sessions on behalf of the district school, light refreshments can be purchased at a reasonable cost for the participants of such events with prior approval from the Superintendent. Food and drink purchases made for the purpose of meeting the goals of school-based educational programs may be purchased according to APS standard procedures.
