Occupational Education

The School Committee recognizes that students in pre-kindergarten through Grade 12+ should:

1. Be afforded the opportunity to be informed about the world of work.
2. Be aware of the many vocations available to them.
3. Develop a respect for the dignity of work.
4. Be allowed the opportunity to develop an understanding regarding the technical, consumer, occupational, recreational and cultural aspects of industry and technology; they should also be afforded the opportunity to develop skills related to such aspects through creative problem-solving experiences.
